SUMMARY

- Proficient in HTML, CSS, and JavaScript, with the ability to create and maintain responsive web designs.
- Developed several web projects, including [Spotify Clone Website] using HTML, CSS, and JavaScript, showcasing hands-on experience.
- Intermediate knowledge of Java, capable of implementing basic data structures and algorithms using Java applications.

PROJECTS

Spotify Clone

📍 Greater Noida

- Developed a fully functional Spotify clone using HTML, CSS, and JavaScript, showcasing proficiency in front-end web development and basic back-end also.
- Implemented key features such as user authentication, playlist creation, song playback, and responsive design for seamless user experience.
- Leveraged JavaScript libraries and frameworks to enhance the project's interactivity and user interface.
- Demonstrated the ability to work on complex projects independently, including debugging and troubleshooting.

- This project reflects my strong foundation in web development and creative problem-solving skills.

Certification and Courses

Projects on Data Analyst Portfolio

- Collaborated with a team of data analysts to deliver data-driven solutions.
- Presented the project outcomes and impact to the organisation.
